Sprint 2 Retrospective

2 things that went well?
Collaboration & Pair Programming worked well.

Problem Solving went well. Encountered a lot of problems but adapted and solved them efficiently.

2 things that went not so well?
Still Struggling with openness and communication. Needs to be worked on. It seemed to let us down a few times.

Logs of work not kept, self-organisation needs to be improved.

2 Challenges faced?
JavaScript. More research and collaboration was needed.

SQL was difficult. Same as javascript - more research and collaboration needed. Pair programming would help.

Any Challenges in the group relationship?
Some were stressed and anxious and let it affect our mood, not treating people with respect at all times.

3 things to improve next time?
Communication
Fair delegation of tasks.
Self-organisation. (Inc. Trello)
2 Things you are proud of?
Quality of our work.
Punctuality.
